Applied to round columns and flat walls. Supplied with yellow stripe in the center.

Sizes

- 200mm
- 250mm
- 120mm

Length

- Standard length is 4 meters

Thickness

- 20mm
- 25mm
- 30mm
- 40mm
- 50mm
- 55mm

X-Joint Car Park & Building Protection Systems

Extruded profiles made from highly grade synthetic rubber, resilient, impact resistant on contact.

Features:

- Impact resistant
- Reduce damage to building components
- Reduces damage to vehicles
- Aesthetic finish with concealed fixings
- Easy to install, maintenance free
- Internal and external use
- Excellent resistance to weathering and UV
- Non-marking
